

PLAY MIX – Osmo

Osmo Apps

Apps with Pieces

Tangram – Arrange tangible puzzle pieces into matching on-screen shapes. Teaches spatial and visual problem-solving skills. Includes 7 shapes.

Words – Guess and spell out the on-screen hidden word by tossing down real-life letters. A picture with the clue stays on the screen. Can be played with friends for a challenge. Teaches spelling and critical thinking skills. Includes 26 red pieces and 26 blue pieces.

Numbers – Arrange physical tiles, including dots and digits, to make numbers and complete levels. Counting, addition, concatenation, and multiplication modes. Teaches math and critical thinking skills. Includes 2 set of numbers 0-9, and 2 sets of 10 dot tiles.

Coding – Not included with the Mix Box, but can be purchased from Osmo.

Apps without Pieces

Masterpiece – Take a picture of anything or anyone (or find one online) and Masterpiece will transform it into simple outlines that you can draw. Draw on paper while following along on the iPad screen. Teaches hand-eye coordination, art skills.

Newton – Guide falling on-screen balls into targeted zones with any object you put on the playing field. Use pieces from other Osmo games, like Tangram pieces, or use everyday objects, or even pen and paper. Teaches creative problem-solving skills.
